

Analog controllers for EX area

EX compliant controller for pH or conductivity, useable in zone 0 IIC T4 and suitable for high ambient temperatures

We would like to inform you about the application range on our website

Technical Data

Model	StratosProA201xpH-0	StratosProA201xpH-1	StratosProA201xCond-0	StratosProA201xCond-1
Displayed	-2.00 ... +16.00		0.000 µS/cm ... 999.9 mS/cm	
Outputs	4 ... 20 mA each (22 mA at error message)			
Measured value	pH or mV or temperature		Conductivity, spec. resistance, concentration, salinity or temperature	
Explosion protection	II 1G Ex ia IIC T4			
EMC	EN 61326-1, class B			
LC-Display	Main display, secondary display, text, Sensoface®, status display			
Warranty	2 years on defects in quality according to § 10 terms of conditions			

Model	Description	Order No.
StratosProA201xpH-0	Controller for pH with 1 current output	109 444 EX
StratosProA201xpH-1	Controller for pH with 2 current outputs	109 445 EX
StratosProA201xCond-0	Controller for conductivity with 1 current output	300 944 EX
StratosProA201xCond-1	Controller for conductivity with 2 current outputs	300 945 EX
